

## SOUTH SIDE WINS TWO VICTORIES IN COUNCIL AFTER WARM DEBATES

### Ordinance Passed to Widen Sixth Street From Main to South Fork of Licking ---Will Condemn Property

### CITY WANTS THE OHIO CANAL BED FOR STREET

### Resolution to Extend Time for Railroads to Consider Subway Plans is Lost After Much Debate---Must Ask South Siders.

Score one for the South Side.

This section of town, which for years past has been compelled to stand back and take what the city council saw fit to pass its way, has at last come to its own.

This was evidenced by the two victories won in the council chamber Monday night. Councilmen Stock and Prior led the attacking forces and were ably supported by Councilmen Irwin and Elsnor. Messrs. Baker and Stare got on the band wagon on the final vote, so in the end the vote was almost unanimous.

The controversy did not assume the proportions of a hot fight, but there was far more spirit in the debates on the questions at issue than have been noted in the council chamber for many moons.

The measures that brought about the debate were a resolution to extend the time to the railroads in going over the plans for the proposed subway, and an ordinance to appropriate property to widen South Sixth street.

An effort was made by Councilman Stare to have the Sixth street appropriation ordinance referred to a committee and the effort to have the resolution regarding the time extension adopted, failed when the matter was put to vote.

Councilman Stock introduced the Sixth street improvement ordinance and in support of the measure he called attention of the council to the fact that efforts have been made many times in the past to get this legislation through, without success. The matter never got further than the committees. He urged the passage of the ordinance on suspended rules.

Councilman Stare, in opposition to the ordinance, asked that it be referred to the street committee and suggested that the resolution be amended by the committee to include a small strip of land on the east corner of Main and Sixth streets, to make it conform with the line of the street below the canal.

City Solicitor Bolton explained that the preliminary resolution which preceded the ordinance did not include the change on the east side of Sixth street and that it would be impossible for the present ordinance to include that property. He further stated that the damage resulting from appropriating this property, which would include a portion of a dwelling, necessitating the removal of the building, would be almost half the total amount of damage resulting from appropriation of property on the west side of the street.

In support of the resolution extending time to the railroad companies, Councilman Stare addressed the council and stated that Attorney Edward Kibler Jr. was present and would explain to the body why the extension was asked. Mr. Kibler explained that the railroad's civil engineers were rushed with work and that they had not been given sufficient time to go over the plans. He said this was a piece of work of greater importance than had ever been attempted in the city and that it was the wish of the railroads to co-operate with the council in the matter, but they felt they could not do the matter justice in the brief time allotted them. He asked another 90 days.

Councilman Stock explained that he had introduced the resolution merely to get it before the body and have it defeated. He said he did not favor the resolution at all and would vote against it.

Councilman Elsnor, in a short address, held that if the railroad wanted an extension of time, they should go to the South Side Citizens' Association and ask them for the extension and have the association recommend council to extend the time.

When noses were counted on the final vote on both propositions it was found that the South Side had come

out victorious in both instances, which reflects much credit on the council in its effort to give the people below the railroad that to which they are entitled.

Councilman Muenz was the only member of the body absent when the roll was called. Mayor Ankele reported the appointment of W. H. Mazey as library trustee, in place of Ray Martin, who resigned a few days ago. The appointment was confirmed.

The street committee reported favorably on the petition to construct a concrete walk on Norton avenue, from Prior to Maple. The committee reported that it could not recommend a sewer on Boyleston avenue, because there was no trunk sewer in which to empty the new sewer.

Councilman Stock's ordinance to widen Sixth street was introduced. It provides for the appropriation of 12 feet of property on the west side of Sixth street, from Main to the canal; 16 feet on the west side of Sixth street, from Wilson street to the railroad, and 12 feet off the west side of the same street from the north line of the Ackerman property to the South Fork.

Councilman Stare's motion to refer this to the street committee was lost by a vote of 4 to 2, Messrs. Stare and Baker voting to refer. Councilman Prior's motion to pass the ordinance on suspension of rules was adopted by a vote of 5 to 1, Mr. Stare opposing. After the rules were suspended and the ordinance read the second and third times, it was passed unanimously, even Councilman Stare falling in line.

Councilman Irwin introduced a resolution to acquire the canal property in Newark from Front to Sixth street. He explained that the preliminary steps would cost nothing; that the state would send a board of appraisers to Newark to place a valuation on the canal property and that the city could then proceed with the improvement if they thought the expense was not too great. The resolution was adopted.

Then came Councilman Stock's resolution, which he did not support. He wanted to get it before the council just to get it defeated, and he accomplished his purpose. The resolution provided for the extension of 90 days' time to the railroads in going over the plans for the proposed grade crossing elimination at Second, Third, Fourth Fifth and Sixth streets.

After debate, the roll was called on the adoption of the resolution and it was lost, Baker and Stare being the only ones who favored the adoption of the resolution.

It is a source of much gratification to South Side residents to know that the council is made up of men who have their interests at heart at all times, and are not afraid to buck the "interests" in support of their principles.

## GRAVE DANGER OF ATTACK ON ALL FOREIGNERS IN CHINA

Hankow, China, Oct. 17.—The long-dreaded clash between the rebels and foreigners has taken place and fighting is now going on in the streets. The Germans have roused all Latin hatred of the races among the natives. All over the city mobs are being lashed

ed into fury by the old familiar cry, "kill the white devils," and an attack upon European and American citizens may take place at any moment.

Hankow, China, Oct. 17.—Fierce fighting has broken out here and a body of German marines has been attacked by a mob. The natives resented the attempt of the Germans to check the pillaging that has gone on uninterruptedly since the rebels captured the city. There are grave fears that a general attack on all foreigners is imminent.

Peking, Oct. 17.—All passenger traffic between this city and the sections affected by the rebellion has been suspended by the government, which is using every train out of the capital for the transportation of troops. The closing of the railways has caused a near panic here, for thousands of business men were arranging to take their families out of the danger zone, a step now impossible. The situation instead of clearing is growing more serious daily. In the absence of reliable information the wildest rumors are afloat and the unrest among the masses increases accordingly. The government seems at last to be awakening from the stupor in which the first news of the rebellion plunged it. The sixth army division will be entrained today for the scene of the trouble. The war minister is in personal charge.

London, Oct. 17.—The boggy of the extension of the Turko-Italian war to Europe with all the possibilities of international complications has once more raised its head. A dispatch from Rome today says that Italy is preparing to withdraw a portion of its fleet from Tripoli and will occupy several islands of the archipelago. The dispatch also asserts that the bombardment of Smyrna and an attack on Dardanelles is contemplated by the Roman government if Turkey still refuses to accept Italy's terms.

## LYNCHING BEE IN ARKANSAS

Forest City, Ark., Oct. 17.—The body of Nathan Lacey, the negro, lynched here last night, was cut down today and a coroner's inquest begun. A number of arrests are expected shortly, as few members of the mob which battered down the jail doors and dragged the negro through the streets made any attempt to conceal their identity. Lacey was held on a charge of assaulting Mrs. Thomas Cox at her home, 8 miles from here.

## WILL CARRY FIGHT INTO CONVENTION

Chicago, Oct. 17.—Definitely on record as supporting Senator Robert M. La Follette for the Republican nomination for president, the conference of Progressives in session here today laid plans to carry their fight into the national convention next year. In order to make "their declarations of principles" of the broadest possible scope, the conference abandoned the original plan of specifying the exact reforms for which the Progressives stand.

The platform as adopted bespeaks judgment of greater control with the people in government affairs and the wresting of power from the representatives of special interests.

## MILLING DAM WENT OUT TODAY

LaCrosse, Wis., Oct. 17.—The Davis Milling company's dam across the river from Galesville, went out today and the water is rapidly approaching the town. Beaver Creek on which the dam is situated is a tributary to Black River, which recently swept away millions in property.

## AVIATOR STARTS FROM MINNEAPOLIS FOR NEW ORLEANS

Minneapolis, Minn., Oct. 17.—Aviator Harry Robinson left here at 9:10 a. m. on his flight to New Orleans. He was sighted passing St. Paul about 9:30 a. m., flying easily and fast. Robinson had been trying to get a start since Friday, but was delayed by adverse weather.

## MAKING FAST TIME.

Hastings, Minn., Oct. 17.—Aviator Robinson passed over here at 9:41 a. m. He was flying 2000 feet high and fast. Hastings is 30 miles from Minneapolis and Robinson made it in 20 minutes.

## FUNERAL OF LATE JUSTICE HARLAN

Washington, Oct. 17.—In a last tribute to Justice John M. Harlan, the "great dissenter," official Washington went in a body today to the New York avenue Presbyterian church to attend the funeral services. The justices of the supreme court acted as honorary pallbearers.

Governor Willson of Kentucky, who years ago was a partner of Harlan, was in the family group. All the courts and commissions in the federal and district government were assigned special seats. The Loyal Legion sent a big delegation. The burial was private, in Rock Creek cemetery.

## "EYE KISS" WON HEART OF "RUSSIE"

### Seeks \$50,000 Damages for Alleged Breach of Promise

## LITTLE LOVE SECRETS

### Told Before a Crowded Courtroom ---Infatuation of Woman for Youth.

New York, Oct. 17.—"The soul kiss," the "Netherole kiss," the "Salome kiss," and even the "Mary Garden kiss," alas, must take their places with the snows of yesterday. The love of Russell A. Griswold, Miss Helen W. Smith's "Ruzzielamb," was won with the "eye kiss" so sweet that it cannot be defined. Mr. Griswold described it on the witness stand in his action for \$50,000 damages for breach of promise.

Unruffled by the titters and giggles that rustled through the crowded courtroom, "Ruzzielamb" laid bare all the little love secrets that passed between him and the beautiful, though no longer young Miss Smith, daughter of Millionaire James B. Smith, president of the New York Stock Exchange and Commodore of the New York Yacht club. Miss Smith at one time was the wife of Homer Cummings, mayor of fashionable Stamford, Conn., but she obtained a divorce and resumed her maiden name.

"Miss Smith always loved to kiss my eyes," Griswold stated. "She would kiss them over and over and over again and say 'Russell and his pretty little eyes.' The 'ki' on postal cards she sent me was her code for the eye kiss."

Twelve serious minded jurors, whom Lawyer Edmund L. Mooney, for Miss Smith, mentioned as "men of the world," listened with solemn visages to the testimony of "Ruzzielamb."

The allegation made by Griswold, who is much younger than Miss Smith, is that he first met her in 1901, when she was the wife of Homer Cummings, and that he devoted nine years to her. At the end of that time she jilted him and "wrecked his life." His suit for \$50,000 damages was filed in 1910.

A great part of the day was taken up by Jacob Gordon, Griswold's attorney, in examining the vetrenment and addressing the jury finally selected.

In eloquent language Lawyer Gordon described the course of "Ruzzielamb's" unhappy love affair.

"We will show," he said, "how this woman first awakened love in the plaintiff's boy heart. He was then but 18 years of age and just out of high school. She lured him on day by day. She taught him various flirtation signals. She devoted apparently every thought toward nourishing this love and to hold him to herself against the opposition of his family and the ridicule of his friends."

Attorney Mooney, in outlining the defense to the jury, said his client made two answers to Griswold's suit—one that there was never any promise to marry "Ruzzielamb," and therefore there could be no breach of promise.

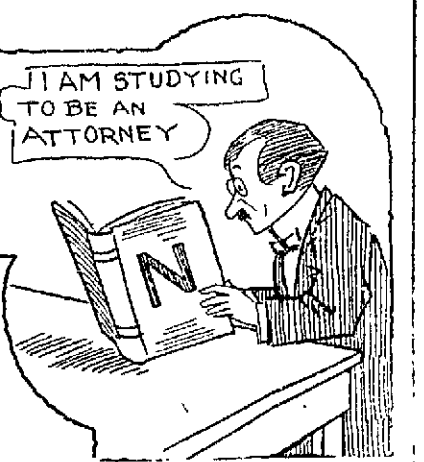

Griswold described the sad, waning years of his nine-year dream of joy when a mysterious engineer, Harper, appeared on the horizon with his plans for a \$10,000 motor boat.

Griswold said the first day he called (Continued on Page 4, Col. 3.)

Richmond, Va., Oct. 17.—Rt. Rev. Augustus Van De Vlier, for the last 22 years bishop of the Roman Catholic diocese of Richmond, died here of complications resulting from a severe cold. He was born in 1844 in Haesdonck, East Flanders, Belgium.

## WORK OF SECURING A JURY IN DIEHL CASE BEGAN THIS MORNING

TENTATIVE JURY SECURED.

MARK SMITH—Merchant, Pataskala.  
ENOCH H. WATKINS—Clerk in B. & O. Offices, Newark City.  
JOHN D. SCOTT, Painter, Newark.  
WEBSTER STEPHENSON—Metal Polisher, Newark.  
JERRY FRANKENBERRY—Farmer, Hartford Twp.  
C. W. WOODRUFF—Farmer, Eden Twp.  
VILAH WILLIAMS—Farmer, Lima Twp.  
J. W. ACTON—Material handler, B. & O. Shops, Newark City.  
CLYDE OSBORNE—Clerk in General Store, Jersey Village.  
JAMES PARKS—Teamster, Burlington Twp.  
THOMAS VAN DORN—Merchant, Pataskala Village.  
E. E. HESS—Grocer, North Newark.

With the selection of E. E. Hess, grocer, of North Newark, the panel in the Diehl murder case was completed at 2:30 this afternoon, breaking all records for expediency in the examination of talesmen and the selection of tentative jurors in any of the previous cases.

Only 22 of 38 talesmen were examined. After a recess of 10 minutes exercising of peremptory challenge was begun. The rule laid down by Judge Mansfield in the Watha case and followed in the succeeding cases will obtain in the lawsuit.

The state will exercise one peremptory challenge, the defense then four, and thus alternate until both sides have exhausted their challenges.

The case of the State of Ohio vs. Walter Diehl, charged with murder in the first degree, in connection with the lynching of Carl Etherington, the dry detective, on July 8, 1910, was called in common pleas court Tuesday morning before Judge Edward Mansfield of Mansfield, who was especially assigned to try this case, and arrived in Newark Tuesday morning for that purpose.

Judge Mansfield was the first judge to try any of the numerous murder cases growing out of the lynching, having presided at the trial of Montelle Watha, nearly a year ago, in December, 1910. During his stay in Newark at that time he became acquainted with nearly all the attorneys at the Licking county bar, as well as news writers and court officials, by all of whom he is well liked for his courteous manner and genial disposition.

When the court called the case at 9 o'clock the setting of the court room was reminiscent of the trial of William McKinley last January, except the personal appearance of the defendants, and of course, different presiding judges.

Diehl is a tall, slender young man, blonde complexion and light eyes and hair. He is not yet 30 years of age, and was born and reared in this city. His fleeing from Newark, soon after the lynching, his indictment by the special grand jury on a capital charge, the search for him for about a year, his arrest in Terre Haute, Ind., his return to Newark by officers of this county and incarceration in the county jail, have been repeatedly recited and are well known to all who have even cursorily followed the case.

He sat behind his counsel, between his young wife on the right hand and his aged mother on the left, and from the beginning took an active interest in all the proceedings. He is represented by Attorney S. L. James, acknowledged to be one of the best posted criminal lawyers in Licking county, a careful counselor, and a powerful advocate, as chief counsel in the preparation of his case, the marshaling of evidence, the examination of witnesses and the building of a fabric of defense, difficult to break down by the opposition, practices law in the courts of this county.

Associated with Mr. James is Attorney L. C. Russell, who is also recognized as a brilliant young attorney, and especially well qualified by experience and temperament to act in the defense of one charged with so grave a crime. Thus the interests of Diehl will at no time suffer during the trial.

At the state's counsel table sat the three men who have handled the prosecution of all the former cases, and whose ability as criminal lawyers is well known, and has been proven heretofore many times. Prosecutor Phil B. Smythe, of course, has charge of the state's case and has the able assistance of Attorney Wil-

NEW YORK . . . . . 0 0 1 0 0 0 0 0 0 1	2 3 5

New York, Polo Grounds, Oct. 17.—Either because of darkening skies or darkening prospects there was a decidedly bearish tendency evidenced in the enthusiasm of the New York fans today and when at 1 p. m. the Giants dropped out on the field there were many vacant seats scattered throughout the bleachers, and only the slightest sprinkling of spectators in the grand stand. At the appearance of the Giants on the field they were given a very "mild" hand. But a few minutes later the staid Athletics meandered across the diamond and they were greeted with

yells of genuine approval. By 1:30 there were but few vacant seats on the field. With the sky getting darker and darker up to the start of play the fans hopes of seeing some baseball not confined to the limits of a pitching duel took a rise. The field, while reasonably fast, was moist enough to discolor the ball.

## BOTH SIDES IN M'NAMARA CASE WOULD MAKE PROGRESS IN THE SELECTION OF JURY

Los Angeles, Oct. 17.—When court convened today both sides in the Mc-Namara murder trial were determined to press the case and make material progress in the selection of a jury. Two men have already been accepted by the defense, subject to peremptory challenge and it is expected that at least two more will be secured today. One has already been tentatively accepted by the defense. He is James W. Roberts, a man supposed to have had considerable experience with dynamite. It is admitted that the de-

fense hopes to retain him on the jury because of his knowledge of freakish actions of the explosive. Attorney Darrow, chief counsel of the defense, thinks Roberts would explain to the other jurors the impossibility of dynamite being exploded without leaving proof of its existence by traces of the downward force exhibited by it.

With material progress in the case in sight the interest is growing. Crowds today beseeched the sheriff for tickets to the court room and the force of deputies on duty at the trial has been increased.

## DYNAMITE PLACED ON THE TRACK

### Discovered in Time to Prevent Accident to Taft's Train

## WATCHMAN HAD BATTLE

### With Two Suspects Who Made Their Escape---In the Insurgent Camp.

Santa Barbara, Calif., Oct. 17.—Secret service men from San Francisco and special detectives engaged by the Southern Pacific railroad are engaged today in an investigation of the plot reported last night to dynamite President Taft's special train. The secret service men are said to have evidence that the persons responsible for the placing of the dynamite on the bridge are hiding in the mountains.

San Francisco, Oct. 17.—A report received here by officials of the Southern Pacific Railway Company from C. B. Brown, section foreman for the road at Naples, Cal., gave details of the discovery of 36 sticks of dynamite under the Santa Barbara, 30 miles north of Santa Barbara, several hours before President Taft's special train passed over the bridge. The dynamite was found after the watchman engaged in a revolver battle with two men, who escaped.

The dynamite was discovered early in the morning. The president's train passed over the bridge at 5:51. The night watchman saw two men on the bridge shortly before 2 o'clock. They were at the opposite end of the 1000-foot span and ran when ordered to halt. The watchman hurried across the bridge, firing several shots, which were returned.

After the pair had escaped in the darkness, the watchman returned to the bridge and began an investigation. Near the center of the span, lodged on one of the supports of the viaduct, he found the 36 sticks of dynamite, with a 10-foot fuse attached to one of the sticks. He left the dynamite, going immediately to Santa Barbara and notifying the officials.

Sheriff Wines of Santa Barbara county went immediately to the bridge with several deputies and removed the dynamite. A general search is being made for the men.

## PRESIDENT GIVEN HEARTY WELCOME

Los Angeles, Oct. 17.—President Taft spent yesterday and today in insurgent southern California and received a hearty welcome in Los Angeles and Pasadena. The streets were thronged and there were cheers all along the route. It was entirely a non-partisan reception. Senator Works and Governor Hiram Johnson of the insurgent wing of the Republican party accompanying Mr. Taft on all his travels.

The president's principal address was here on the subject of vetoes and the tariff board. Following an appeal for support for scientific tariff revision of the various schedules, based upon reports of the tariff board, Mr. Taft called out a storm of cheers by announcing to the lemon growers that the tariff on their product would not be changed until the tariff board had time to investigate and report on the difference in the cost of production at home and abroad.

"The tariff board," said the president, "is made up of highly honorable men who are anxious to find the facts without reference to their political effect. They would scorn to change their views for any political consideration."

Mr. Taft was constantly on the go until midnight, when he retired at the home of his sister, Mrs. W. A. Edwards, in this city.

Mr. Taft was taken to Pasadena for luncheon. On the way back he stopped at Alhambra to review a mass of school children. As he was leaving Alhambra there was an exciting incident. A horse attached to a delivery wagon took fright as the president's car whizzed by and started on a wild dash. Three or four local detectives leaped from the escorting cars and grabbed for the animal's bridle. They were shaken off. Then three of the machines in the parade closed around the horse, shutting him in as they dashed along. The maneuver completely shielded the president.

Mr. Taft spoke last night on the arbitration treaties at a banquet given by the chamber of commerce. The president yesterday addressed a meeting of negroes, where he de-

HEALTH AND BEAUTY HINTS

BY MRS. MAE MARTYN.

Ethyl: Your mother is right in condemning face powder, as it will in time ruin any complexion, by clogging the pores and causing the skin to become rough and wrinkled. If you desire your face to retain its smooth, clear appearance, use the following lotion and I am sure your mother will not object nor will you ever regret it. Dissolve four ounces of spumax in half pint hot water and add two teaspoonfuls glycerine. This lotion takes away that shiny, sallow appearance and will make your skin smooth and velvety without giving it a powdered look. Spumax lotion stays on much better than powder, does not show, and is unequalled for removing tan, freckles and skin pimples.

Rena N.: Neither vaseline nor olive oil will correct your scalp troubles. Keep your scalp clean with frequent shampoos, and use the following tonic about twice a week, massaging it gently into the hair roots: Mix one ounce of quinine into a half pint alcohol, then add a half pint cold water. This invigorating tonic will destroy every particle of dandruff, eliminate scalp irritation, stop your hair from coming out, and make a healthy, abundant growth. Its regular use makes the hair soft, glossy and free from that stringy, dead-looking condition.

Mildred: Do not despair. You can rid the skin of those bothersome hairs and wear low-neck gowns. If you get an ounce of salicylic acid from the drug store and with a little mix enough water to form sufficient paste to cover the hairy parts. Let remain two or three minutes, then rub off, wash the skin and the hairs will have vanished. While salicylic acid costs a dollar an ounce, it is well worth the price, as a second application seldom is required to permanently remove hairy growths.

F. R. A.: Dieting and exercising will not reduce weight permanently. The only safe remedy I know of that will not injure one's health, is made by dissolving four ounces of parnosin in a pint and a half of hot water. A tablespoonful taken before meals reduces superfluous flesh at an amazing rate and does not leave the skin flabby and wrinkled, as most of the remedies that in five weeks she reduced her weight 37 pounds with this simple remedy. It is inexpensive.

Grounds would be tested this afternoon.

Merkle's injured leg was still in bad condition today and the Giants' first baseman was hobbling badly when he showed up at the park for a little early practice. He was determined to start in the game and McGraw said he would keep the big fellow in as long as he was able to play the position. In the event of his leg going entirely back on him, Devlin will relieve him at the first sack.

Straight Ball Did It.

Big Chief Meyers writing of yesterday's game, states that one mistake on the part of Rube Marquard was responsible for its loss.

After Collins had doubled and rested on second, Baker stepped to the plate and Meyers fully expected Collins to tip off the catcher's signals. The chief held a conference with Rube instructing him to ignore signals and pitch two curve balls. This was done and then Rube had nothing else to do but follow the straight signals. Meyers' call for a fast ball inside the plate was the mistake that cost the game.

Christy Mathewson says the two teams are evenly matched. He says the Athletics had the break of luck yesterday while the Giants had it Saturday. He says he has a plan to prevent the Athletics from tipping off signals and that he will explain it after he has had an opportunity to put it to test.

Attendance Figures.

The attendance was just 10,000 less than saw the Saturday's game, but it was a great turnout at that. The paid admissions numbered 28,286. Two thirds of these were bleacher admissions, for Philadelphia is surely a cheap town. The dollar admissions numbered 17,299. There were 7,764 at \$3, 1,074 at \$2 and 149 at \$1.50. Owing to the large proportion of dollar tickets the receipts were only a little more than half what they were in New York on Saturday. The gross amounted to \$42,962.50, of which 10 per cent went to the commission. The players' share was \$23,199.75, and each club got \$7,738.25. The players' divvy this year is going to beat all records by nearly 100 per cent. The Athletics already have nearly \$65,000 in their pool, with two more games to be played. It is a cinch that each player on the winning club will get at least \$3,000, and probably more. While each of the losers will get at least \$2,000 and very likely \$2,500, it's worth fighting for, and today's game will be a great battle.

The young woman, who apparently had been drugged, is in a serious condition. Physicians declare that Dr. Willis is insane.

Dr. Willis a year ago was indicted on the charge of abducting Jennie Dayton, the girl who is now his wife. The case against him was dropped when the young woman appeared in court with a marriage certificate.

Philadelphia, Oct. 17.—The Ohio contingent at the world's series was a high glee last night over the triumph of the Athletics in the second game. While many were disappointed that they were denied the privilege of seeing Jack Coombs pitch, they were all pleased with the masterful work of Plank and are more confident than ever that the Athletics will bring home the bunting.

The setting for yesterday's game could not have been more perfect, all things considered. The rain of Sunday put the playing field in the best of condition and the day was perfect.

As the thousands entered the park, many notables in the national game were recognized and all were tendered an ovation. That the old-timers who graced the game are not forgotten when they have left an honorable name behind them, was demonstrated upon the appearance of "Silent Mike" Tiernan, once the famous outfielder of the old Giants. Among many present day fans his name is forgotten, but upon his appearance today he was given an ovation by the fans who remembered him that would make one of the modern stars turn green with envy.

Another who came in for a great share of the applause was Wilbur Robinson of the famous old Orioles. Now grown fat, and apparently as far from condition as one could get, he appeared in a New York uniform, and the cheers that greeted him were dazzling. Then came old Cap Anson, who was reporting the game for a local paper. He, too, got an ovation.

Another thing the fans had for their entertainment that was not on the program, was the appearance of the mysterious Charley Faust, who has been following the Giants for the last part of the season, claiming that if he were permitted to accompany them they would surely win the pennant and later the world's championship.

He played in center field during the batting practice of the Giants and his foolish antics kept the immense crowd convulsed in laughter for 15 minutes. He handles himself about like a bear would play a banjo. He vied with the miniature Hennessy, the mascot of the Giants, in trying to reach the balls as they were hit out in the field, and proved himself some runner. He was finally left to chase all the balls in the outfield himself, and it is estimated that he covered about ten miles, as he was doing a continuous marathon for the last five minutes of practice.

The hunchback who acts as mascot for the Athletics must surely carry a charm. In the sixth inning it was noticed that he was absent from his usual position while the first two batters were retired, but came upon the field again just as Collins went to bat. Collins hit for two bases along the left foot line to be followed a minute later with the long drive of Baker over the right field fence. As Baker went to the players' bench after circling the bases the hunchback was the first to shake his hand.

Perhaps never before in the history of the game the spectators been treated to such a demonstration as that which followed the drive of Baker. It was announced before the game that a hit into the crowd would go for two bases. At first it appeared that the ball had struck high in the bleachers, but when it was seen that it had just cleared the fence the multitude was on its feet and the deafening applause continued long after Baker reached the bench. It was a terrific drive and went straight on a line.

Plank surely justified the judgment of Connie Mack in putting him against the Giants, for he not only had them eating out of his hand during the entire game but made many of them look very foolish in their attempt to even connect with the ball. This is especially true of Devore. In his four times to the plate Josh not only struck out every time, but he did not as much as foul one of the balls pitched to him. The first time he seemed disposed to grab a little with Umpire Connolly, but later he seemed to concede that Plank had the goods on him.

As has been stated before, the Giants contend that with men on second base, the Athletics are able to tip off battery signals. When Collins got on second with his two-bagger, Meyers held a conference with Marquard before he permitted him to pitch. It did not seem to have the proper effect, however, for the next ball pitched to Baker has not been found yet.

Not an attempt was made to piff a base on either side, and the only near chance that was taken was when Merkle, after having singled in the seventh, took one step too much off the bag and was nipped by Plank to Davis. While what was said could not be heard, it goes without saying that McGraw, who was coaching on third base, was not paying any compliment to the first base coach, who had taken the place of Arlie Latham temporarily.

Lord's play on Snodgrass in the sixth inning was a brilliant affair. Snodgrass had hit a line drive over third just out of reach of Baker. It fell just inside of the foul line and Lord, who was playing far over toward center, started at top speed. Grasping the ball with one hand, he wheeled and threw perfectly to Barry at second, who caught Snodgrass standing up.

The error, credited to Devore, was, in a way, excusable. It came in the second inning on a hard hit ball by Barry. He went far back and right up against the crowd on the left side and got both hands on the ball but could not hold it. It was a grand effort, and many of the scorers were in favor of allowing the hit, but the official scorer said error, and so it was recorded.

Arlie Latham, who is well known to the old fans in Ohio for the funny capers he used to cut on the coaching lines, holds the position of official coacher for the Giants and works on first base, while McGraw acts at the third corner. Latham is just as funny as ever, and, if anything, has added a little to his assortment for the big occasion.

A CORROBORATION

Of Interest to Newark Readers.

For months Newark citizens have seen in these columns enthusiastic praise of Doan's Kidney Pills, by residents of this locality.

Would these prominent people recommend a remedy that had not proven reliable?

Would they confirm their statements after years had elapsed if personal experience had not shown the remedy to be worthy of endorsement?

No stronger proof of merit can be had than confirmed testimony.

The following statement should carry conviction to the mind of every Newark reader.

G. W. Harter, Hebron, Ohio, says: "I suffered from kidney complaint for years and received no benefit from physicians' prescriptions. I was finally led to try Doan's Kidney Pills and they cured me. At that time I publicly endorsed them and I now gladly do so again."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Our fruit growing industry in the ISLE OF PINES promises much better profits than any manufacturing or merchandising business will pay, with far less risk. We are building up AN ORGANIZED, CO-OPERATIVE INDUSTRY, based on the soil and its products. We want more Ohio people to join the 300 already interested in this enterprise. We want them to go there and see what HAS BEEN DONE and what CAN be done. We want them to go while they can make "GROUND FLOOR" investments, in a new country, which is being rapidly developed by as live a lot of people as ever left Ohio, and where land values are increasing with corresponding rapidity. The various clubs of the city are today sending delegates to represent them at the state federation of clubs being held in Cleveland from the seventeenth to the twenty-third of October. The clubs and their representatives are: The Revere club, Mrs. J. B. Jones; The Travelers' club of Granville, delegate Mrs. William Clemons, alternate, Mrs. Daniel Rogers; Investigators' and Research clubs, Mrs. W. S. Turner; Coterie club, delegate Mrs. P. J. Glancy, alternate Mrs. Frank Agnew; Monday Talks, Miss Mary Neal.

The program for the sessions includes both instructive and social features and the following calendar of entertainment has been issued by the Cleveland Federation:

Tuesday—From four until seven the Western Reserve Chapter of D. A. R. will entertain with a tea at the Women's club. In the evening a large reception will be held at the Colonial club.

Wednesday—Departments of Health and Household Economics, Industrial and Social Conditions and Civic will hold sessions. Literature Department will present a delightful program. The Rubenstein club of Cleveland will give a musicale lasting one half hour. Address on American Drama Cleveland Council of Women will give a tea from four until seven at their headquarters.

Thursday—Address by Dr. Charles S. Thiving, president of Western Reserve University. Short address by Mrs. Phillip N. Moore, national president of Federation. Address by Mrs. Lawrence Maxwell of Cincinnati, chairman of Music committee of National Federation and president of Ohio Federation. The Cleveland School of Art

will entertain at tea from three until five. College women of Western Reserve University will also serve tea. An automobile ride is planned for the afternoon.

Friday—Art Education, Musical and Library Extension Departments.

Wednesday afternoon at the Hollenden hotel a reception will be given to the "Daughters of 1812," and Mrs. B. Tozier, a member of the Commodore Perry Chapter of 1812, will be the reader.

The Travelers' club met on Monday afternoon in the parlors of the Baptist church at Granville and the two papers on the program were given as follows: In the Civil War, by Mrs. Nichol; The Mardi Gras, by Miss Thorne. Between the first and second papers Mrs. C. D. Coons sang Dixie, and Mrs. Burthost, state chorister of the W. C. T. U., sang several beautiful southern melodies.

One of the interesting features of the afternoon's meeting was the presentation by Mrs. Kate Sheppard Hines of a gavel to the club. The gavel is of much interest, as it is made from historic wood. The handle being of wood taken from the upper seminary, while the mallet is from the lower seminary.

Mr. and Mrs. William Butler of Eddy street, entertained Monday afternoon for their daughter Freda, it being her tenth birthday anniversary. Games and contests were the chief amusements. The prizes for the guessing contest were won by Helen McCullough and Margaret Bader.

Refreshments were served in the dining room to the following: Margaret Bader, Helen McCullough, Bertha Hirschberg, Ruth Bader, Mary Mc-

A MARABOUT FICHU AND RETICULE TO MATCH.

Worn with a black and white striped seilienne gown is one of the prettiest conceits in marabout wear ever thought of. The fetching little fichu which sets over the shoulders like a cape has long fichu ends which are caught below the bust with a cord ornament. To match the fichu there is a pretty bag of gold lace edged all around with the marabout and having long cord handles to swing from the arm or shoulder. These marabout fichu and reticule sets come in the soft, taupe colored "natural" shade which harmonize with almost all costume tints.

Donagh, Helen Lay, and Sarah McConnell.

Miss Florence Hamlin entertained on Friday evening in honor of her guest, Miss Ivy Butler. Miss Hamlin lives in West Main street and her home was the scene of a merry party.

The guests were Misses Dorothy Baker, Bessie Smith, Edith Green, Helen Kuhn, Leah Gunter, Charlotte Kuhn, Edna Lynn, Frances Taef, and Cortay Harding.

## OFF FOR THE BIG SERIES

Harry Bowman, George Thomas, Thomas Prior and Johnny Cullom, all of the B. & O. shops, boarded the fast flyer Monday evening for a hurried run to New York, after being informed by wire that reservations had been secured for them at the Polo Grounds, after their order had been in for two weeks. They will witness the next three games and have formed a pool to back their favorites. They will stop at the national capital on their way home and visit the White House and public buildings.

## ECZEMA REMEDY ALSO WASHES PIMPLES AWAY

No remedy that I have ever sold for Eczema, Psoriasis, and all other diseases of the skin has given more thorough satisfaction than the D. D. Prescription for Eczema.

A 25c trial bottle can be secured at once.

My patrons find that D. D. D. not only gives instant relief to the itching, burning skin, quickly driving out all the disease germs, but it is also the most delightful wash for the complexion they ever used. Absolutely harmless and pleasant to use, D. D. D. cleanses the skin of all minor impurities, such as rashes and pimples, over night, and leaves the skin clear and smooth as that of a child.

It is now generally known that there is nothing that can equal D. D. D. as a household remedy for all skin troubles, no matter what they are.

I, myself, am so fully convinced of the merits of this wonderful remedy that I will charge you nothing if the first full size bottle of D. D. D. does not make good every claim.

Better drop in and talk it over with me anyhow.

## HEART AND HOME TALKS BY BARBARA BOYD

Giving the Children a Psalm of Life.

THE school doors have opened, and every morning now, the children are trudging off to their lessons. And when the children are sent to school, many parents consider that they have performed their whole duty in this respect. Some there are to be sure who take an active interest in the children's lessons, watch their children's progress, and give heed to what they study to see if it is such as will develop and train them mentally. But many think all this is up to the teacher and the Board of Education. The mother sees that the children have a substantial lunch, and that their clothes are as good as possible, and then she considers her duty done. The father pays his school taxes and complacently considers his part of the performance ended.

But it is not enough to send the children to school. Parents should take a keen interest in what the children get there. Upon the sort of education a child acquires, depends his whole future welfare, and there is more to education than a knowledge of arithmetic and spelling and geography. These are the foundations, but these should be used merely to give an outlook on life. And if this right outlook is not secured, the child's education has not been all it should be. If he comes from school knowing arithmetic and geography, but with no true knowledge of what awaits him in the world, nor with trained ability to handle life's problems, his education has only been partial.

Yet today teachers are so hurried and rushed with the material facts of education, that they have little time for this immaterial side. They must turn from geography to spelling, and from spelling to penmanship; and work as fast as they can, the hands of the clock turn faster. And the school day ends before they can find time to point from the actual facts of the studies in hand to their purposes, to draw the children's eyes from the pages of their text-books to the great scroll of life, and to show how these lessons now will help them to understand better the lessons life has for them to learn. They may wish to put the education of the school-room in its proper relation to the education of life, but they may not have the time to take from the actual tasks before them to do this. And so it goes on. And the children drone over spelling and grammar and penmanship, and burst out of school as out of prison.

It is when this higher, truer side of education is not given at school, that the school work should be supplemented at home. Some one has said, "Let the mother believe that the sound mind in the sound body is more to be valued than riches; that a keen eye for color and form, a steady hand to guide a pencil or tool, a mind alert, eager and reasonable; a heart that feels its brotherhood with all living, growing things; a free, frank speech; a generous nature, and an honest tongue are in themselves a Declaration of Independence and a Psalm of Life."

It is this side of education that the parents should bring to a child if he does not get it at school. Life will be to him then, as he goes forward into it, a joyous thing. He will be able to master its problems life will have the key to its secrets.

And we owe it to the children to start them on life's up-hill road with their physical and mental muscles trained for the journey.

Beef Cakes. Cut enough meat from cold roast beef to make one pint when chopped with two small onions. Add to this two tablespoonfuls of tomato catsup, one cupful of fine bread crumbs and one-half cupful of gravy. Mix thoroughly and mold into cakes; sprinkle with bread crumbs and bake to a delicate brown. When cold arrange on a large platter, pour a tablespoonful of mayonnaise over each and stick a sprig of parsley in the center of each cake.

Veal Mousse. Take a half pound of absolutely lean, trimmed veal, preferably from the leg (the cutlet portion). Put it through the food chopper twice, then pound to a paste and rub through a puree sieve. Put the smooth paste in a bowl, add the unbeaten white of an egg and pound until thoroughly incorporated. Add one quarter of a teaspoonful of salt, a dash of cayenne, ten drops of onion juice and two tablespoonfuls of thick cream. Now add alternately the unbeaten whites of three more eggs, and six tablespoonfuls of cream (which should be as heavy as possible). In a shallow saucepan heat a little water to the simmering point. Drop in about a halfspoonful of the mixture and peach it very gently for ten minutes. Break open and note its condition; if too firm the mixture needs a little more cream, if not sufficiently consistent more egg white. When the test is satisfactory butter small molds and decorate sides and bottom with sliced truffle cut in fancy shapes, carefully fill with the mixture, stand in a shallow pan filled with hot water. Cover with sheet of butter paper and cook in a moderate oven until the centres feel firm when lightly pressed; this will take from ten to fifteen minutes according to size. Turn out carefully on a hot platter and serve with a cream, bechamel, allemande or tomato sauce.

the ordinary dust blown about  
in the streets is impregnated  
with disease germs, the national

**OIL WELL MENACES  
NEARBY PROPERTY**  
Cleveland, Oct. 17.—The Newburg  
oil well, unexpectedly discovered last  
Friday night by gas well drillers on  
the property of the Newburg Brick  
and Clay company, continued to gush  
with increasing force yesterday, and  
for a time menaced the entire plant  
because of the close proximity of the  
stream of combustible fluid to the fire  
in the brick kilns.  
At this time a stream of oil six  
inches in diameter shot from the  
mouth of the shaft 23 feet over the  
top of the 83-foot derrick. It is not  
the plan of the company to either  
shoot or pump the well for some time  
and the pocket has been allowed to  
flow its product under natural pres-  
sure.

You can't help breathing germ  
laden dust for it is in the air every-  
where you go, but you can and cer-  
tainly should care for your nostrils  
and keep the air passages clean and  
pure.  
Dust is the advance agent of dis-  
ease. The Bacillus Tuberculosis, the  
cause of all infection, enters the body  
by several pathways. The most com-  
mon of these is by the nose, mouth  
and throat in the process of breath-  
ing.  
An application of Nostriola, the  
great antiseptic, cleansing, healing  
balm once or twice a day to the  
nostrils will keep the air passages  
open, purify them, and the balm will  
catch the germ laden particles of  
dust and prevent them doing harm.  
Many people in this vicinity have  
learned the value of the Nostriola  
Treatment for Catarrh, Cold in Head,  
Croup, Hay Fever, etc., and always  
keep a tube handy for use as a pre-

**THE GREAT MEN.**  
Great men have lived and done their stunts, and then they died  
just like the punts, and still the world wagged on; the sun went calli-  
hooning by, the same old way, across the sky, the night gave place to  
dawn. I sometimes think, when all swelled up until I'm like a poi-  
soned pum, that when I come to creak, the stars will surely jump the  
track, the universe be out of whack, perhaps go up in smoke. I find  
it hard to realize that all the planets in the skies will travel just the  
same, that rains will fall and winds will blow, that there'll be dew  
and rime and snow, when I have jumped the game. It's hard for me  
to understand that I am but a grain of sand upon an endless shore;  
and when I'm blown into the sea the other grains may sigh for me  
—one sigh and nothing more. Ah, many men were called "the great!"  
—their deeds the histories relate, but when they cashed their strings,  
when each had shot his little bolt, the old world never felt a jolt, but  
just kept up its fling. There doesn't live so great a soul that when  
he dies he'll leave a hole in this old mundane place; our old friend

Columbus, Oct. 17.—Warden  
Jones notified Guards Steinfeld of  
Lucas county and Matthews of Wood  
county yesterday that their resig-

ded them in, and both immediately  
complied. Guard Steinfeld was on  
duty at the west tower, near which  
Clyde Stratton and Steve Murray,  
escaped convicts, who are still at  
large, went over the wall last Friday  
noon.  
Guard Matthews was held respon-  
sible by the warden for not leaving  
instructions with the guards on the  
wall not to allow any prisoners on  
the scaffold during the noon hour,  
when the guards, oversee the work,  
were not on hand.  
Guard Steinfeld said later that he  
had been offered a better position  
than the one he held at the peniten-  
tiary, and would leave at once to ac-  
cept it.  
"I have no complaint to make,  
either against Warden Jones or De-  
puty Resch," said Mr. Steinfeld, "I  
was earning only \$75 a month at the pen-  
itentiary. I have been offered a po-  
sition with a salary of \$90 at New-  
some, N. C., which, besides its larger  
salary, will be more congenial

## DIEHL TRIAL

(Continued from Page 1.)

Ham H. Miller, special counsel in these murder cases, representing Attorney General Hogan's office, and also Attorney Seth McMillan, also of this arm of the state government.

Judge Mansfield instructed Clerk E. M. Larson to call the list of 33 talesmen, who had been summoned by Sheriff Slabaugh for jury duty, there were five absentees, but these soon after reported and the examination of prospective jurors was begun.

It was decided to follow the precedent laid down in former cases, and the oath known as the voir dire was administered separately to the talesmen as they took the stand for examination as to their qualifications as jurors. By this oath the jury prospect binds himself to answer all questions as to these qualifications truthfully, and is distinct from the oath as a juror, administered after being accepted.

Early in the examination of talesmen, a legal question was elaborately argued by Smythe and Miller for the state and James for the de-

fense. It came before the court from a question asked by Mr. James of Talesman Mark Smith, who had answered Mr. Smythe that he had formed no opinion as to the guilt or innocence of Walter Diehl, who is on his separate trial.

Mr. James asked Mr. Smith if he had formed any opinion as to any of those charged with the same crime as Diehl.

Smythe objected and argued that it made no difference what his opinion was as to any of the others connected with the lynching, and that when he had sworn that he had no opinion as to Diehl, the talesman had answered satisfactorily and qualified himself. Mr. James contended that if a juror had formed a prejudice or opinion against the "bunch" who had part in the lynching, and

the proof should show that Diehl was in this crowd who were charged with murder by the state, this opinion of prejudice would almost certainly extend to Diehl, and that this would disqualify the juror.

Judge Mansfield temporarily sustained the contention of the defense, but said that he might change his mind in the case of some other talesman later on in the case, and Smith was passed for cause.

It was decided in a conference between Judge Mansfield, Attorneys James and Miller that the panel should be filled with 12 men before any peremptory challenge should issue from either side.

In the examination of talesmen the inquiry of the state's attorneys involved the questions as to the forming of an opinion as to guilt or innocence of defendant and the attitude of the prospect as to his opposition to capital punishment. The defense asked principally as to whether the talesmen had contributed to any "dry" fund, his prejudices along this line and the forming of an opinion from reading accounts of former trials in newspapers.

Charles Wilkin. Was the first talesman examined by Prosecutor Smythe. He stated that he had an aged invalid mother at his home in Mary Ann township, who needed his care and attention, and he was excused by consent of counsel.

Albert Zartman, Banker, of Pataskala, had formed and expressed an opinion as to Diehl and was excused.

Pataskala merchant. No opinion, no scruples as to capital punishment. Passed for cause by state. Questioned by Mr. James and passed for cause.

Obadiah Baughman, Farmer, Fallsbury township. He claimed exemption from jury service as he was past 70 years, and was excused.

George Palmer, Truck driver, Pataskala. Had opinion and was excused.

Enoch H. Watkins, By Miller: Passed for cause by state. By James: "Am contributor and have been to dry fund." Accepted and took seat in jury box.

John V. By Miller: Examined and passed for cause by state and defense. Accepted.

Arthur Hoyt, Miller: Perryton merchant. Opposed to capital punishment. Challenged.

## POLITICS TAUGHT BY PICTURE FILMS IN OLD KENTUCKY

Lexington, Oct. 17.—For the first time in the political history of the South, moving pictures have been adopted as a means of pushing a campaign. Congressman John W. Langley, chairman of the Republican state campaign committee, has started out five moving picture outfits in eastern Kentucky, where they will be used every night until 19 counties have been covered.

The most important issues of the campaign are to be presented in especially posed pictures.

**Cured by Lydia E. Pinkham's  
Vegetable Compound**

Pound, Wis.—"I am glad to announce that I have been cured of dyspepsia and female troubles by your medicine. I had been troubled with both for fourteen years and consulted different doctors, but failed to get any relief. After using Lydia E. Pinkham's Vegetable Compound and Blood Purifier I can say I am a well woman. I can't find words to express my thanks for the good your medicine has done me. You may publish this if you wish."

—Mrs. HERMAN SIETZ, Pound, Wis.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

For thirty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills, and suffering women owe it to themselves to at least give this medicine a trial. Proof is abundant that it has cured thousands of others, and why should it not cure you?

**If you want special advice write  
Mrs. Pinkham, Lynn, Mass., for it

By state and excused after a few questions by Mr. James.

By Miller: Farmer, St. Albans township; had opinion as to Diehl. Excused.

Webster Stevenson, By Miller: Metal polisher at the Wehrle foundry. Passed by state for cause and also by defense after examination by James.

Mark Sturrett, By Smythe: Farmer, Etna township. Presented doctor's certificate that he was incapacitated to a great extent with kidney trouble and rheumatism, and was excused.

JERRY FRANKENBERRY, By Smythe: Farmer, Hartford township. Passed by state for cause. By James: Had formed opinion as to crowd implicated in lynching but not Diehl in particular, had this opinion still. Challenged by defense for cause; overruled and talesman accepted. Exceptions noted by James.

William Barrick, Smythe: Farmer, Liberty township. Had an opinion as to Diehl's guilt or innocence; could not be impartial. Excused.

**TUESDAY AFTERNOON.**

The Diehl murder case was called at 2 o'clock Tuesday afternoon and at 2:30 o'clock there were 11 men in the box as tentative jurors, having been passed for cause by counsel for both state and defense. Of course

all these are subject to peremptory challenges, of which the state may exercise four and the defense sixteen, but none will be made until 12 men have been passed for cause.

The attendance was even smaller than at the morning session, as most persons are now familiar with the tedious process of securing a jury, by the process of eliminating those who for any reason are not satisfactory to both sides of the lawsuit.

Judge Mansfield stated that the sessions of court would open promptly at 9 and 1 o'clock and close at 11:30 and 4:30 o'clock.

Prosecutor Smythe renewed his objection of the morning to a question put by Mr. James to a talesman, as to whether an opinion had been formed or expressed concerning any or all of the men indicted with Diehl, or who have been tried. The court had temporarily sustained the position of the defense that such a question was proper, the state, on the other hand, contending that the absence of an opinion against Diehl only, regardless of what it was as to others, was sufficient. The court formally overruled Mr. Smythe's objection, and the defense gained what

they consider an important point.

The first talesman was Rees R. Jones, Real estate dealer of Newark, who was strongly opposed to capital punishment. Excused.

C. W. Woodruff, Farmer, Eden township. Passed by both state and defense for cause and took his seat in the box.

S. M. Hamilton, By Miller: Farmer, Eden township. Passed for cause by state and was examined by Mr. Russell. He had signed the dry petition and contributed to the dry cause and was prejudiced against the saloon business, but this prejudice would hardly be carried against Diehl, but he thought it might and probably would. Defense challenged for cause.

The court said he doubted very much the propriety of going into any question of the wet or dry issue in examining any talesman and before ruling upon the challenge asked the prospect a number of questions as to nature of the prejudice in his mind, after which he sustained the challenge and excused Mr. Hamilton.

Vilab Williams, Farmer, Lima township, examined by Miller and passed by state. Questioned by James, who asked if talesman had taken any part in the local option campaign. The state objected to this question and the court sustained the objection, Judge Mansfield thus being the first to rule upon this question, which has been asked by attorneys for the defendants in all previous cases, without any general objection by the state. Exceptions taken by defense.

Mr. Williams took his seat in the panel.

J. W. Acton, Newark city, material handler at B. & O. store room, passed by state and defense.

Clyde Osborne, Store clerk in village of Jersey. Examined by Miller and passed by state and defense for cause. Accepted.

James Parks, Teamster, Burlington township. Examined by Miller and passed by state for cause and by defense. Accepted.

Thomas Van Dorn, Merchant, Pataskala. Examined by Smythe and passed by state for cause. Examined by Russell and passed for cause by defense. Accepted.

## Remedies are Needed

Were we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies are needed to aid Nature in correcting our inherent and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discovery, a glyceric compound, extracted from native medicinal roots—sold for over forty years with great satisfaction to all users. For Weak Stomach, Bloatingness, Liver Complaint, Pain in the Stomach after eating, Heartburn, Bad Breath, Belching of food, Chronic Diarrhea and other Intestinal Derangements, the "Discovery" is a time-proven and most efficient remedy.

# Daddy's Bedtime Story

The Singing Mouse  
Who Took Lessons  
From the Owl

The Mouse Climbed Up to the Owl's Door.

"ONCE upon a time," began daddy, "there was a mouse that thought he could sing."

"Sing?" came from Jack and Evelyn. "Sing? A mouse?"

"Um, yes," replied daddy. "Don't interrupt me, please, or I shall forget my story. This mouse lived in an old house in the country, where there was only a far housekeeper, who was too lazy to put the cheese away and always forgot to put the cover on the jam pot."

"As his living came so easily, he had plenty of time to do as he liked, and so he thought he would learn to sing. The mouse fancied he had a fine voice. So he began practicing the scale in squeaks—do, me, sol, do."

"But he didn't get along very well. There were a couple of crickets living next door to him, and he said it was because they would always start up creak-creaking whenever his practice hour came around."

"So, although the little mouse thought that it was a pity the housekeeper should lose the pleasure of hearing his lovely voice as she sat in the evening nodding in her armchair, he moved up into the attic."

"In the attic Mrs. Swallow had her nest and four charming young ones. When the little mouse began his practicing his do-re-mes she sighed. 'Dear me, how will my darlings ever be able to get their naps?'

"But with all his exercising of his voice it didn't seem to grow any louder. 'I want a voice so strong that I can scare the cat or charm her, as I choose,' said Mr. Mouse. 'Birds can sing, not so sweetly as mice, of course, but there might be something I could pick up from them. There's a bird that sings out in the woods at night that has a splendid strong voice. I shouldn't mind having a lesson or two from him.'

"So he stepped up to ask Mrs. Swallow who it was."

"That—oh, that," she said scornfully. "That's Mr. Owl. We don't call that singing, we birds don't."

"Birds don't know much," Mr. Mouse replied very rudely and began climbing downstairs to find Mr. Owl's nest."

"Mr. Owl was sitting in the door of his nest in the hollow tree in the woods wondering where his breakfast was coming from."

"I have a great taste for music," said the mouse."

"So have I," said the owl, and before you could say Jack Robinson he had swooped down and tried the mouse—voice and all."

"And the owl always said that was one of the best breakfasts he ever had."

### OHIO AND GAS NEWS.

(State Journal)

After taking a general survey of the district around Gratot, in the western section of Muskingum county, in the central Ohio gas field, several operators say that Gratot is about to become a center of active work for oil, and that the prospects for the opening of an oil field in that portion of Muskingum, and the eastern part of Licking counties is very promising.

The completion of a test well a few days ago by the Columbus Gas and Fuel Company on the C. E. McCracken farm, section 4, Hopewell Township, Licking County, has set the minds interested in the oil development to thinking, and as a result all the land that can possibly be obtained is being leased, and several new loca-

The McCracken well is making a fine showing, and it is estimated along about 80 barrels a day for the first five days gauge. It is equally as good if not better than the well on the Johnson-Cone farm, drilled several months ago. The oil was found in the Clinton sand at 2918 feet and drilled 3 feet in the sand, or to a total depth of 2955 feet. Following the completion of the McCracken well comes another by the same company on the Henry J. Duncan farm, same township, and in section 18, about three miles northwest from the Johnson-Cone farm well. This is estimated as good for 10 barrels by the owners. The Clinton sand was found at a depth of 3025 feet and the sand drilled to a depth of 25 feet. This well only found a few feet of pay sand, while the McCracken well is reported to have close to 20 of pay, indicating that the Duncan farm well is only an edge well. W. Hunter Atha, who is doing some operating in the Central Ohio field, states that the oil operators are watching and becoming more careful in the selection of sites to drill and the days of the wild-cat wells will soon be a thing of the past, and states further that the Gratot field looks very promising. He reasons very well outside of the wildcat end, for if new fields are found some one must wildcat to find them. As things now look and at the same time the future of western Muskingum and Eastern Licking County oil fields much depends upon other wells that are now under way. If these wells develop oil, the parts of each county mentioned will be leased by various oil operators who are awaiting their turn to jump into the limelight. ## AMUSEMENTS

## What the Press Agent Says

## "THE FAMILY."

The widely heralded and much discussed play of home life, "The Family," which was produced with great success at the Comedy theatre in New York, and received long and successful runs at the Powers theatre in Chicago, and the Globe theatre in Boston, will receive its first local presentation here at the Auditorium theatre this evening.

The fundamental idea is to show in a perfectly simple story, the tragic circumstances that grow out of the everyday life of an American family whose five members are struggling to solve the mysteries of their lives and their environment.

The action of the play creates situations that engulf all the characters. One by one, each member of the family is drawn into the maelstrom that whirls into their lives. The elder daughter, the son, the father, the mother, and the younger sister—all find themselves in the grip of the tide. Destruction seems inevitable. Numerous causes have contributed to the disaster. An unwelcome guest, the sixth character in the play has struck the shattering blow, and the family is threatened with extinction. The crisis has come. Who can avert it? Fortified with the faith that is incomparable

and courage that never wavers, she saves them all.

## "THE CHORUS LADY."

One of the scenes that makes an amusing comedy of the "Chorus Lady," which will appear at the Auditorium on Wednesday, Oct. 18, is the inside view of the dressing of the chorus room of the Broadway theatre, New York. The room is occupied by your women looking fit to line up in the beauty row of "He Came From Milwaukee," and "The Balkan Princess," the season's new plays of feminine enticement. As modest does not lift the roof of the theatre to let the public look in—he kindly removes a side wall and the exposure is satisfying.

## "THE BOHEMIAN GIRL."

Coming to the Auditorium on Saturday, Oct. 21, matinee and night, is Aborn's big spectacular production of the Paris version of Balfe's masterpiece, "The Bohemian Girl," which was originally presented at the Theatre Lyrique, Paris, during the gala fetes of the French Second Empire, the success of which won for the brilliant Irish composer the decoration of the Legion of Honor from Napoleon III. This version not only requires an elaborate scenic environment, but in the effort for realism, consistently permits the introduction of much that is new and novel in opera, including troupes of real Gypsies, a cavalcade of trained horses, dazzling ballets, marvellous whirlwind acrobats. This production proved one of the real big successes of last season, and is now announced as being bigger, brighter and better than ever.

## The Orpheum.

Manager Bassett received word on Monday from the booking house that the big circus act which was to have appeared this week had to cancel the date on account of the stage being too small. It was a distinct disappointment, but the hustling local manager immediately got busy with telegraph and telephone and the result is that he has booked a headline feature that will pack the pretty Arcade playhouse for the balance of the week.

O. G. Murray, lessee of the theatre, wishes to please the local patrons and he has instructed Manager Bassett to advertise the fact that the "Three Maryins," who replace the circus act, is one of the strongest acts of its kind ever seen on a vaudeville circuit. There is one woman and two men in the troupe and their work is simply marvelous. Nothing but encoiumiums was heard of their work after the Monday performances and their feats of strength, graceful acrobatic work and hand balancing. It is needless to add that it is one of the most expensive acts on the Murray circuit.

The bill the first half of the week is opened by Lowell & Esther Drew in a travesty sketch that is immense and very enjoyable. Both are very clever and their witticisms get many a laugh. They have an exceptionally pretty and clever set.

The great Romanelli, violinist, arrived last evening from Detroit, just in time to appear before the rise of the curtain. He is one of the big hits of a very clever bill and should be heard and seen, as he does stunts with his violin that would seem almost impossible.

The Sydnos Operatic Duo is a real treat. They costume their act in grand opera style, and their singing is more than pleasing. They get their share of the encores and respond cheerfully. The picture is a good one, depicting a mother's dream of her childhood days. The show is undoubtedly better than the average and will pack the Orpheum for the balance of the engagement.

## THE DOCTOR'S QUESTION

## Much Sickness Due to Bowel Disorders.

A doctor's first question when consulted by a patient is: "Are your bowels regular?" He knows that 98 per cent of illness is attended with inactive bowels and torpid liver, and that this condition must be removed gently and thoroughly before health can be restored.

Reckall Orderlies are a positive, pleasant, and safe remedy for constipation and bowel disorders in general. We are so certain of this great curative value that we promise to return the purchaser's money in every case when they fail to produce entire satisfaction.

Reckall Orderlies are eaten like candy, they act quietly, and aid in producing a soothing, strengthening, healing influence on the entire intestinal tract. They do not purge, gripe, cause nausea, flatulence, excessive looseness, diarrhoea, or other annoying effect. They are especially good for children, weak persons, or old folks. Three sizes, 10c., 25c., and 50c. Sold only at our store.—The Reckall Store, Frank D. Hall, 10 North Side Square.

DECISION IS  
AFFIRMED IN  
DIEGEL CASE

Columbus, Oct. 17.—The circuit court today affirmed the three year sentence imposed by Common Pleas Judge Kinkaid upon Rodney J. Diegel, sergeant of arms of the Ohio State Senate, who was convicted of complicity in legislative bribery.

In refusing to interfere to save Diegel from his penitentiary sentence the court upheld Judge Kinkaid in most of his rulings.

Diegel's attorneys will now ask a further stay of execution to keep him out of the pen until the supreme court has passed on the case. Diegel since being sentenced, has been out under \$10,000 bond.

Through the action of the circuit court in overruling the contention of the defense that the entrapment of Diegel by use of a dictagraph was not legal, the court is ready to proceed with the other dictagraph cases pending in which Senators Huffman, Cetone and Andrews are indicted.

Regarding the contention that Judge Kinkaid drove the jury to a verdict by keeping it out sixty-six and one-half hours during the most sultry weather, they held to the view that Judge Kinkaid had said nothing that might not properly be said in urging a jury to agree nor was the length of time such as to indicate coercion.

Diegel was indicted May 4. He was placed on trial June 20 and on July 3 the jury found him guilty. On September 9 he was sentenced but was granted a stay of execution pending the circuit court's decision on the case.

FIFTY MILLION  
WANTED FOR GOOD  
ROADS IN OHIO

Not for many years have the supporters of bigger and better things in the matter of roads had such bright prospects as at the present time. At the annual meeting of The Ohio Good Roads Federation held at the Chitenden Hotel, Columbus, there were present representatives of the various allied county organizations together with officers of Farmers' Granges, Automobile Clubs, Business Men's Clubs, Boards of Trade and Manufacturers' organizations throughout the state. Addresses were made by the officers of Federation together with reports from the treasurer and secretary.

All present seemed to realize that in the coming Constitutional convention a great opportunity is afforded the people of Ohio to advance their commerce, industry and social conditions, by providing for a system of improved roads throughout the state. Last winter when Governor Harmon vetoed the law which would have provided about three million dollars per year for the construction of an Inter-County system of roads, it was thought that the Good Roads movement had received a setback, but the governor's objections to the bill were well founded, even in the estimation of Good Roads proponents, and it is for the purpose of overcoming these objections that the Constitutional amendment has been suggested. So, for the purpose of securing this amendment the Ohio Good Roads Federation will conduct a campaign of publicity throughout the state. If successful, the value of this precedent will be far-reaching, for if Ohio declares it to be good business policy to issue long term bonds for the construction of roads throughout the state, it is more than likely that other states will be encouraged to follow a similar plan.

Thus, instead of waiting years for roads to be built a few miles at a time in different sections of the state under different engineers, county commissioners and trustees, the state will find itself benefitted from a thoroughly consistent and rapid improvement of its roads as a unit, under the specific supervision of a capable State Highway department. The Federation takes the ground that the investment of fifty millions in good roads throughout the state will bring a larger and quicker return in increase of business, greater development of natural resources, increased value of farm lands, better health and improved moral conditions for the people of the state, than any other similar investment that can be made by the state in national government. The Federation will endeavor to keep clear of entanglements with other questions before the Constitutional convention, believing that the people are a unit in their request for a change in methods relative to the treatment of the road problem of the state.

The educational feature of the work of the Federation will receive considerable attention this coming winter. They will endeavor to have a representative at all county meetings called by the State Highway department, in which the method and type of construction of the various county roads will be discussed. Effort will be made to improve all roads of different type throughout the state, and to stop any waste resultant from antiquated methods of construction, and will neglect of the maintenance of roads throughout the state. The legislative problems will not be brought into the campaign this year for reason that there will not be a session of the General Assembly until 1913, and the discussion of legislative enactments would only complicate the greater problem of the Constitutional amendment.

The propaganda certainly is one that interests every citizen of the state whether country man or city man, for in addition to stimulating all industries in the state, it will be a powerful incentive if realized to keep the rising generation on the farm instead of following the lure of the city, thus helping to solve the most menacing of all sociological conditions. The plan is both practicable and feasible and should receive the earnest support of the people of the state.

The following resolution was offered and unanimously adopted at the meeting.

Resolved that the Ohio Good Roads Federation endorse the proposition to secure a Constitutional Amendment permitting the state to issue bonds for state aid to road construction and that the officers of the Federation be authorized to inaugurate a campaign to secure both the submission and adoption of such amendment to the Constitution of Ohio.

And further be it resolved that the Federation be instructed to act in conjunction with the American Association for Highway Improvement and other organizations to secure Federal appropriations to the several states for aid in the building and maintenance of roads.

BACK COVERED WITH  
MASS OF PIMPLES

Burned and Itched So He Could Hardly Stand It. Tried Medicines, Etc., Nearly 3 Years. In Eternal Misery. Started Using Cuticura Remedies. Now Has No Sign of Skin Disease.

"My troubles began along in the summer in the hottest weather and took the form of small eruptions and itching and a kind of smarting pain. It took me mostly all over my back and kept getting worse until finally my back was covered with a mass of pimples which would burn and itch at night so that I could hardly stand it. This condition kept getting worse and worse until my back was a solid mass of big sores which would break open and run. My underclothing would be a clot of blood.

I tried various blood medicines and other remedies and saved for nearly three years and I was not getting any benefit. It seemed I was in eternal misery and could not sleep on my back or lean back on a chair. I was finally given a set of the Cuticura Remedies by my brother who recommended them to me very highly. I started using the Cuticura Remedies and inside of two weeks I could see and feel a great relief. I kept on using Cuticura Soap, Ointment and also the Resolvent, and in about three or four months' time my back was nearly cured and I felt like a new being. Now I am in good health and no sign of any skin disease, and I am fully satisfied that Cuticura Remedies are the best ever made for skin diseases. I will always recommend them to anybody who will use according to directions. I would not be without them." (Signed) W. A. Armstrong, Corbin, Kan., May 26, 1911.

For more than a generation Cuticura Soap and Ointment have afforded the most economical treatment for affections of the skin and scalp of infants, children and adults. Although sold by druggists and dealers throughout the world, a liberal sample of each, with 25-p. book on the skin, will be sent free, on application to Potter Drug & Chem. Corp., Dept. 274, Boston.

NARROW ESCAPE  
FOR ZANESVILLE  
WATER NYMPHS

Zanesville, Oct. 17.—When a skiff which they had entered in an attempt to row across the Muskingum river at Cedar Rock sprang a leak and began to sink, Iona Berry and Goldie Agin, aged 16 and 17, became panic-stricken and fainted. Ethel Bell and Nettie Maddox, on the bank, saw their predicament and succeeded in throwing a rope over the end of the sinking boat and dragged it to shore.

HEALTHY  
MOTHERS

Women who bear children and remain healthy are those who prepare their systems in advance of baby's coming. Unless the mother aids nature in its pre-natal work the crisis finds her system unequal to the demands made upon it, and she is often left with weakened health or chronic ailments. No remedy is so truly a help to nature as Mother's Friend, and no expectant mother should fail to use it. It relieves the pain and discomfort caused by the strain on the ligaments, makes pliant and elastic those fibres and muscles which nature is expanding, prevents numbness of limbs, and soothes the inflammation of breast glands. The system being thus prepared by Mother's Friend dispels the fear that the crisis may not be safely met. Mother's Friend assures a speedy and complete recovery for the mother, and she is left a healthy woman to enjoy the rearing of her child. Mother's Friend is sold at drug stores. Write for our free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature.

GRAY HAIR MAKES  
YOU LOOK OLD

A Simple Remedy Brings Back the Natural Color—Dandruff Quickly Removed.

How often one hears the expression, "She is gray and beginning to look old." It is true that gray hair usually denotes age and is always associated with age. You never hear one referred to as having gray hair and looking young.

The hair is generally the index of age. If your hair is gray you can't blame your friends for referring to you as looking old. You can't retain a youthful appearance if you allow your hair to grow gray. Many persons of middle age jeopardize their future simply by allowing the gray hair to become manifest. If your hair has become faded or gray, try Wyeth's Sage and Sulphur Hair Remedy, a preparation which a chemist by the name of Wyeth devised a few years ago. It is simple, inexpensive and practical, and will banish the gray hairs in a few days. It is also guaranteed to remove dandruff and promote the growth of the hair.

It is a pleasant dressing for the hair, and after using it a few days, itching and dryness of the scalp entirely disappear.

Don't neglect your hair. Start using Wyeth's Sage and Sulphur today, and you will be surprised at the quick results.

This preparation is offered to the public at fifty cents a bottle and is sold and recommended by all druggists.

## OBITUARY

**MRS. MARY C. COAD.**  
Mrs. Mary C. Coad died at 10 o'clock Tuesday morning at the home of her sister, Mrs. William Holler, 60 North Second street. She was aged 59 years and 10 months.

The funeral services will be held on Thursday at 12:30 o'clock by Rev. T. A. Cosgrove, and the burial will be in the Ulrica cemetery.

**MISS ISABELLE BURKHAM.**  
Miss Isabelle Burkham died at her home, 715 West Main street, Saturday, October 14, at 3 o'clock. She had been a sufferer from paralysis almost three years. She was born in Muskingum county and came to Licking county with her parents about 10 years ago, where she has since resided.

About six years ago she moved from the home farm now known as Byrn Du farm near Granville to her present home in West Main street. She was a devoted member of the First Presbyterian church, taking an active interest in this church until the close of her life. She was a sincere, noble woman, always endeavoring to give a helping hand in time of need to those about her. To know her was to love her. She leaves a sister and brother, Miss Adeline and Mr. Volney Burkham of the home and one brother Harry Burkham of Granville.

The funeral was held at the home at 2 o'clock Monday afternoon, Rev. F. E. Vernon officiating and interment was made in Cedar Hill cemetery.

**FOUND DEAD IN LAKE.**  
Chillicothe, Oct. 17.—John Miller, aged 55, a Spanish-American war veteran, was found dead in the park lake here yesterday afternoon. He had been missing since Thursday. The supposition is he was sitting on the bank and rolled in.

## IT IS EASIER TO SAVE THE HAIR

You Have Than to Grow New.

The tendency to put off until tomorrow what we should do today accounts for most of the bald heads we see in the front row.

Newbro's Herpicide stops falling hair and prevents baldness. The dandruff germ is destroyed by its use and a condition of health maintained in the hair and scalp.

Nearly every one has hair troubles of some description which Herpicide will always correct. Don't wait until it is too late.

It is conceded to be the standard hair remedy and is recommended and applied by all the best hair dressers and barbers.

## AN ALARM WILL CALL YOU EARLY

How nice to sleep these cold mornings and how easy it is to sleep over-time. Old Father Sol is not on the job of waking us early now and there's just one remedy and that is—"An Alarm Clock."

The first 8-day alarm clocks ever put on the market are now shown at Haynes Bros., the jewellers, at 8 North Park Place. Let them demonstrate to you the simplicity of this 8-day wonder. It has one continuous ring and one has to get up to stop it. This clock sells at \$2.75 and it is surely a marvel. The intermittent Alarm Clock rings every fifteen seconds and is very popular. The Lark Alarm Clock gives one good ring and usually succeeds in arousing the sound sleeper. Then don't fail to look at the splendid line of gilt clocks, Mission clocks, etc.; the new traveling watch clock that folds up the size of a man's cigar case and can be carried in your pocket or hand satchel. Any of these clocks would make fine Christmas presents. A popular anniversary gift is the Century Clock, which when wound up on the anniversary day does not run down until the next anniversary. Haynes Bros. carry one of the most varied and complete line of clocks to be found anywhere. 17-19-21

## INDIGESTION AND STOMACH MISERY ENDED

Nothing will remain undigested or sour on your stomach if you will take a little Diapiesin occasionally. This powerful digestive and antacid, though as harmless and pleasant as candy, will digest and prepare for assimilation into the blood all the food you can eat.

Eat what your stomach craves, without the slightest fear of indigestion or that you will be bothered with sour risings, belching, Gas on Stomach, Heartburn, Headaches from Stomach, Nausea, Bad Breath, Water Brash or a feeling like you had swallowed a lump of lead, or other disagreeable miseries. Should you be suffering now from any stomach disorder you can get relief within five minutes.

If you will get from your pharmacist a 50-cent case of Pape's Diapiesin, you could always go to the table with a hearty appetite, and your meals would taste good, because you would know there would be no indigestion or sleepless nights or headache or Stomach misery all the next day, and besides, you would not need laxatives or liver pills to keep your stomach and bowels clean and fresh. Pape's Diapiesin can be obtained from your druggist, and contains more than sufficient to thoroughly cure the worst case of Indigestion or Dyspepsia. There is nothing better for Gas on the Stomach or sour odors from the stomach or to cure a Stomach Headache.

You couldn't keep a handier or more useful article in the house.

## NEW WRIGHT MACHINE IS GIVEN TRIAL

Mantoo, N. C., Oct. 17.—Preliminary gliding tests made here by the Wright brothers on Hill Thirteen developed the fact that there is nothing radical in the design of the machine used. Six glides were made, the longest of them being 250 yards, while the maximum time in the air was 26 seconds. The new machine, so far as could be observed, is different from the standard type only in its much flatter wing curve and appears to be a refinement of the monorail gliders that Alexander O'Gilvie and Anthony J. Drexel Jr. already have tried at their aerodromes in England.

Observers agree that the machine should stay aloft in a strong wind a considerable length of time, if the sustaining surface of the glider and the depth of its lifting curve are both increased. With this accomplished, the success of the machine still would depend almost entirely upon the development of the personal skill of the operator.

Orville Wright operated the machine and was assisted in the experiments by his brother Lorin and by Alexander O'Gilvie.

## STOMACH GAS

The Cause of Many Misleading Symptoms and Unnecessary Alarm.

Gas on the stomach sometimes causes pressure on the heart and the sufferer is unnecessarily alarmed, fearing heart disease. In other cases it produces bloating and more needless worry. The real trouble is in the blood.

When the blood is poor and thin, and the stomach in consequence is imperfectly supplied with well-oxygenated blood and nerve force, the digestive process becomes slow and fermentation of the food goes on, with formation of gas and certain acids. The pressure of the gas causes pain in the stomach; the acids produce the sour risings in the throat. There are plenty of things to neutralize these acids, or "sweeten the stomach" as it is called, but they do not cure the trouble. Pure rich blood which will tone up the stomach is required, as this case shows.

"Five years ago," says Mr. Walter Geary, of No. 303 Kraus avenue, Roxborough, Philadelphia, Pa., "I was confined indoors, working in a machine shop, and became run down. For three years I suffered from gas on the stomach. I felt bloated up, had terrible pains in the abdomen and was so dizzy at times that I could hardly see anything. I had bad headaches frequently. I lost my appetite and weight, and got as yellow as could be. I felt tired all of the time and could hardly drag my legs along. I had trouble in keeping at work and was nervous and despondent."

"The doctors' prescriptions didn't help me and I thought there was no cure until I began using Dr. Williams' Pink Pills for Pale People. A thorough trial of the pills completely cured me and I am now feeling in perfect health. The vigor and strength, which comes from a healthy stomach and a perfect digestion can only be obtained by keeping the blood pure and red. Sufferers from too much gas or acid on the stomach, heartburn, tenderness or pains through the pit of the stomach or any form of indigestion should start at once to build up and purify their blood with Dr. Williams' Pink Pills for Pale People. Others who need a blood-builder will find these pills a most useful tonic."

Dr. Williams' Pink Pills are sold by all druggists or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by Dr. Williams Medicine Company, Schenectady, N. Y. Write today for a free copy of our booklet, "What to Eat and How to Eat."

## TEN DEMANDMENTS

A Chicago man who has a large number of employees has posted cards which bear the above caption and the following rules:

1. Don't lie—it wastes my time and yours. I'm sure to catch you in the end, and that's the wrong end.
2. Watch your work, not the clock. A long day's work makes a long day short and a day's short work makes my face long.
3. Give me more than I expect and I'll pay you more than you expect. I can afford to increase you pay if you increase my profits.
4. You owe so much to yourself that you can't afford to owe anybody else. Keep out of debt, or keep out of my shops.
5. Dishonesty is never an accident. Good men, like good women, can't see temptation when they meet it.
6. Mind your own business and in time you'll have a business of your own to mind.
7. Don't do anything here which hurts your self-respect. The employee who is willing to steal for me is capable of stealing from me.
8. It's none of my business what you do at night, but if dissipation affects what you do next day and you do half as much as I demand, you'll last half as long as you hoped.
9. Don't tell me what I'd like to hear, but what I ought to hear. I don't want a valet to my vanity, but I need one for my dollars.
10. Don't kick if I kick—if you're worth while correcting, you're worth while keeping. I don't waste time cutting specks out of rotten apples.—Exchange.

## DOZEN GOVERNORS WILL VISIT EAST IN SPECIAL TRAIN

St. Paul, Oct. 17.—A special train of Pullmans and exhibit cars under the direct charge of the governors of twelve states of the West will visit most of the country between Chicago and New York before the holidays, stopping a day at the principal cities. The train will be run in connection with the St. Paul Land Products Show, which is to be held under the auspices of the Northwestern Development League. The Development League is a commercial club of seven states and has the backing of thousands of business men scattered all over the Pacific.

On this special train will be the governors of twelve states. Promoters of the plan say that they have ten of them already pledged to make the trip, which will begin about November 20, and will end about a month later, both start and finish being made from this city.

The governors will be accompanied by an exhibition of the products of the states over which they preside, to show the states of the East what the soil of the West will produce. The main purpose of the trip, however, is a social call of the chief executives of the West on the business men of the East. There have been a large number of trade excursions of business men to the West at various times when social visits were made to men of that region. Now the governors are to get together and return these calls in an official fashion.

The governors that are to make the trip are Eberhart of Minnesota; Weston, California; Hawley, Idaho; Johnson, Oregon; Norris, Montana; Hay, Washington; Burke, North Dakota; Shafer, Colorado; Spry, Utah; Carey, Wyoming; Oddie, Nevada; and Vessey of South Dakota. They will cordially invite the people of the East to travel through the West and if they like the country, to settle on some of the fertile land waiting for some one to farm it.

The special train will return just before the St. Paul Land Show, Dec. 22-23, and is said to be the most gigantic advertising proposition ever planned in this country. The land show will be the first to be held by the new league of commercial bodies of the Northwest, and will attract thousands of people who have heard of the West and are anxious to see for themselves what can be raised in that territory. At the land show, products of all the states in the league will be gathered together for inspection. The best of each state is being selected and will be arranged for the easy inspection of the visitors.

That the products will do more than astonish the people of the East is promised by Will A. Campbell, secretary of the league and manager of the land show. He has been traveling through the western end of the territory embraced in the league and has discovered a number of surprising exhibits for the show.

One of the surprises was at Libby, Mont., where J. M. Kennedy, a state

### NOTICE FROM BOARD OF REVIEW

We again call attention of property holders of the city to the fact that our Board will close its present session and adjourn Monday, October 23, 1911. The result of our labor has been most gratifying. Great numbers of our people have voluntarily come to our office and listed personal property for taxation. The great middle class of property holders who have heretofore borne more than their just and equal share of taxation, are now convinced, or may be if they will examine the records, that the valuable real estate on the public square and elsewhere in the city is now on the tax duplicate at its true value in money as required by law, and that all the large corporations and public utilities will pay their fair proportion of the taxes. Hence, the willingness of the people to correct their returns, and list their money in banks and building associations and their apparent desire to pay their fair share of the taxes if the rate is low and all other property is actually listed.

The Board will be in session daily till Monday, October 23, 1911, to accommodate those who wish to list the money and credits they own April 9, 1911. Remember if you do this, you will not be liable for penalties next year. Also, bear in mind, that this week is your last opportunity to attend to this.

THE BOARD OF REVIEW.

### FRENCH CONVENT INVADED

An audacious attempt to enter a French convent and abduct a lovely woman was a deed perpetrated by "Cardillac," the man who set all France afire with his name. Read Robert Barr's superb romance "Cardillac." Formerly published at \$1.50, now FIFTY CENTS at Norton's Book Store. Get the Habit.

A coward is a man who remains single to avoid it.—Judge.

### OHIO BAPTISTS ARE IN SESSION AT ZANESVILLE

Quite a number of Newark and Granville Baptists are in attendance at the 86th annual meeting of the Ohio Baptist convention, now being held in the Market street Baptist church, Zanesville. The convention opened Monday night. Rev. H. T. Stillwell, D. D., pastor of the First Baptist church of Cleveland and president of the convention, announced the opening hymn and introduced Rev. C. H. Holden, D. D., as chairman of the evening session. Dr. Holden responded to the president and gave a most hearty welcome on behalf of all the Baptists of Zanesville. His address was a strong appeal for truth as against false issues.

Rev. Walter A. King of Martin's Ferry delivered the annual sermon. Rev. Mr. King is Dr. Holden's successor at Martin's Ferry.

Tuesday morning's session was principally taken up in the appointment of committees, the annual address of President H. F. Stillwell, the reports of G. E. Leonard, secretary of the church edifice department, and of Secretary C. J. Rose of Granville, of the missionary department.

Tuesday afternoon's session was devoted to hearing the reports of Secretary T. G. Field of the home and foreign missions and of Field Worker W. A. Holmes of the Sunday school department, and the election of officers.

Tuesday evening Dr. E. W. Hunt, president of Denison University, will deliver an address in response to the address of the presiding officer.

There will also be an address by the Rev. H. P. Stillwell, D. D., on the "Development of Denison" and an address by Charles T. Lewis, on "Our Educational Investment."

The report of the board, by Secretary F. G. Detweiler will be heard, and there will be an election of officers.

### NO TRESSPASSING ON "HOME" GROUNDS

The attorney general of Ohio has ruled that trespassing upon children's home grounds is contrary to law. Notice is given that all parties trespassing upon the children's home farm or grounds will be prosecuted to the full extent of the law.

By order of County Commissioners.

### STUDENT OF DENISON WAS SHOT IN LEG

Rifle Accidentally Discharged While Climbing Over Fence—In the City Hospital.

James Hart, a student at Denison University, accidentally shot himself with a bullet from a 22-calibre target rifle. Young Hart was one of a number of young people composing a nutting party and had taken his gun along to shoot at a mark. In climbing over a fence the gun was accidentally discharged, the bullet taking effect in the fleshy part of his right leg. The injured man was assisted to the residence of Mr. Jones and Dr. Follett was called, who attended to the injury, after which he was removed to the City Hospital in this city.

### THIS IS IMPORTANT

Erman & Sons Desire to Announce That They Are the Agents for Thompson's Barosma, the Money-Back Kidney and Liver Cure.

There are hundreds of people, young and old, right here in Newark who are taking medicines for various ailments, who do not even suspect that the kidneys are to blame.

These sufferers do not know that in all probability their kidneys are all clogged up, are inflamed or congested and are unable to properly filter the impurities from the blood.

It is the kidneys that keep the blood pure, and if the kidneys are not in good condition, disease of other organs of the body will surely develop.

If you are in ill health now, and are not absolutely certain of the cause, get a 50-cent bottle of Thompson's Barosma at Erman & Son's today. It will tone up your kidneys, liver and bladder in a week.

It is the best investment you can make. It is worthy of a trial on our guaranteed plan. Ask for Thompson's Barosma. The dollar bottle contains more than twice as much as the fifty-cent size.

### FOUND BODY ON AN ISLAND

Akron, Oct. 17.—The body of Charles Cheslock, aged 19, who was drowned two weeks ago while attempting to rescue a pig from the Cuyahoga river at Boston Mills, was found on an island a mile below the point where he went down. The body of Cheslock's companion, who was drowned at the same time and in the same manner, has not been recovered.
